

# GARZA

**GARZA** is a collaborative musical experience conjured up by Rob Garza, one-half of the pioneering electronic outfit, *Thievery Corporation*. His new project is a deep reimagining of a process that features a collective of artists, musicians, producers, visual artists and videographers. With multidimensional music and a convergence of genres; it blends, merges and melds together into one singular experience.

**GARZA** explores a different musical palette of colors and textures than Rob Garza's previous work...at times blurring the lines between 'pop' familiarity and electronic esoterica. After twenty years of Thievery Corporation, GARZA is redrawing his musical boundaries and stretching into areas with a newfound freedom that feels deep and open all at once, yet is undeniable in its accessibility.

**GARZA's** debut EP releases Fall 2019 with five exciting new tracks. Featuring vocalists: Seann Bowe, Emeline and Shenova...and the ethereal and evocative artwork of Indig0 with each single. The EP releases on Rob Garza's own Magnetic Moon label.

In 2020, **GARZA** will hit the road with a live band of instrumentalists and vocalists, playing in venues and festivals worldwide.
