

## BIOGRAPHY

The Lemon Twigs, the New York City rock band fronted by brothers Brian and Michael D'Addario, have been steadily capturing attention with their unique blend of youthful energy and seasoned songwriting. Drawing on nearly a decade of experience since their debut as teenagers, they combine rock, California harmony, power pop and baroque pop into a distinctive, joyously inventive sound. Their work is marked by intricate arrangements, multilayered harmonies, and adventurous instrumentation – all self-produced in their Brooklyn studio. The brothers craft songs that balance escapist pop with moments of introspection, seamlessly shifting between styles while communicating their ideas with emotional resonance, setting them apart in modern rock music.
